

Hercules makes it a breeze to turn your living room into an awesome pop-up nightclub!

Rennes, March 14, 2019

Hercules — a key player in the DJing and musical entertainment market — is thrilled to unveil its brand-new, two-in-one solution for unforgettable parties. Who hasn't dreamed about turning their living room into a real nightclub? Well, now you can — and it couldn't be easier, with the freshly-minted DJSpeaker 32 Party speakers.

Pumping out the quality sound that Hercules is known for (2 x 15 watts RMS/60 watts peak power), each DJSpeaker 32 Party speaker proudly sports a light dome on top, with LED spotlights that react to the beat of the music. Give your parties a huge boost whenever you like, and really get everyone dancing!

The DJSpeaker 32 Party speakers are incredibly easy to use: just plug them into your favorite DJ controller (like the Hercules DJControl Inpulse 200 or DJControl Starlight), or connect them directly to your smartphone and instantly enjoy listening to your favorite tracks with mesmerizing lighting effects! No matter what you're up to, and without any constraints, it's never been simpler to conjure up the perfect mix of sound and lighting. The icing on the cake is that the speakers are exactly the right size to take them with you wherever you go, with no hassles.

Easily controlled via the included infrared remote, the speakers let you choose between 4 different lighting modes to keep the good vibes at your parties going non-stop:

- Mode 1: lighting effect to the beat of the music.
- Mode 2: lighting effect to the beat of the music, active even during transitions between two songs.
- Mode 3: rapid flash effect to the beat of the music.
- Flash function: the strobe effect keeps on going, even when there's no music playing, for amazing non-stop lighting.

The DJSpeaker 32 Party will be available for sale from April, 25th 2019

Recommended retail price: US\$129.99
