

Wireless Bluetooth® monitoring speakers for mixing, creating, and listening to music? Hercules announces its latest innovation!

Rennes, 09/30/2019

Building on the success of the DJMONITOR 32, Hercules is expanding the concept to win over new DJs by offering high-quality compact wireless Bluetooth monitoring speakers for mixing and producing, while making it easier to listen to music in "sharing" mode.

Using Bluetooth wireless technology, the DJSpeaker 32 Smart will keep you connected as you mix, helping you gain new sources of inspiration by sharing music with your friends and sharing playlists at parties!

- Bluetooth multipoint pairing technology: connect up to two devices simultaneously
- Quality sound: 2 x 15 watts RMS, 60 watts Peak Power, 3-inch woofer
- Offset tweeters for clearer playback and better stereo sound spatialization
- Optimized acoustic guide for high performance sound reproduction, 6 mm MDF wooden housing

This pair of active monitoring speakers is ideal if you are just getting started DJing. These small and portable speakers stand out thanks to their quality and power.

Using state-of-the-art equipment (anechoic chambers, test benches), Hercules listens and makes Sharing and DJing possible with its all-new DJSpeaker 32 Smart speakers!
